

Western Door Floor Tracks

The Series 7650 Sliding Glass Door comes standard with a 1.5" sill. For increased effectiveness against the elements, 2" and 2.6" options feature a higher interior leg. The 1.5", 2", and 2.6" sills meet the commercial specifications of the American Architectural Manufacturers Association (AAMA) and boast a performance rating of DP50. A flush sill option that lines up with most interior flooring is also available. All sills are finished to match the color of the frame.
